

Finance Manager - CFO | Aludyne Norway

Leadership Role in a World-Leading Industrial Business

About the Position

Make Your Mark on the Finance Function in a Global Industry Leader Focused on Innovation.

Do you want to contribute to international competitiveness and sustainable production?

Aludyne Norway is seeking an experienced and commercially oriented leader for its finance department.

This is a key role within an international group that develops and manufactures highly sought-after, safety-critical components for premium automotive brands such as Porsche, BMW, and Jaguar Land Rover.

As Finance Manager, you will have strategic responsibility for developing the company's financial function in close collaboration with regional and local partners.

Join us to help drive the solutions of the future in the automotive industry.

Responsibilities and Key Tasks

As Finance Manager, you will play a central role in the management team, contributing to the company's development. You will ensure effective financial management, drive improvement processes, and help position the company in a rapidly evolving industry with clear sustainability requirements.

Key tasks include:

- Overall responsibility for the finance department, including personnel management for two employees.
- Leading budgeting and forecasting processes while further developing cost control models.
- Supporting the organization with improvement projects and profitability analyses.
- Ensuring liquidity management and investments aligned with the company's strategy and goals.
- Enhancing and optimizing the use of digital tools.
- Managing sustainability reporting (CSRD).
- Participating in board meetings and acting as the primary contact for banks, financial institutions, and auditors.

Why You Should Apply | What We Offer

Aludyne offers excellent opportunities to collaborate within an international and high-tech organization with clear growth ambitions. This position provides substantial development opportunities and the chance to work with some of the world's leading automotive brands.

Reasons to apply:

- A varied and challenging role with strategic responsibilities and significant influence.
- Attractive terms and robust insurance arrangements.
- A dynamic work environment characterized by cross-disciplinary collaboration, innovation, and teamwork.
- The opportunity to develop and lead a well-functioning finance department.
- A central role in a global organization focused on future solutions.

We are proud to supply customers such as Jaguar, Land Rover, Mercedes, BMW, Porsche, and Rolls-Royce.

Aludyne has been repeatedly recognized as Foundry of the Year and has won awards such as *Engineer of the Year* from *Teknisk Ukeblad* and improvement awards from the Norwegian Industry Federation for achievements in safety, HMS, skills development, automation, and energy management.

Desired Personal Qualities

To succeed in this role, you need to be an analytical and strategic leader with strong execution skills. You thrive in an active production environment and are motivated by achieving results and driving improvements.

We hope you identify with these traits:

- Business-oriented and analytical, with a strategic mindset.
- Results-driven with strong execution capabilities.
- Trustworthy and skilled at collaborating across functions and levels.
- Structured and detail-oriented, capable of managing complex processes.
- Solution-oriented and proactive, with a clear focus on improvements.

Qualifications We Are Looking For

We are seeking a Finance Manager with solid experience in similar roles, preferably in industrial or production-oriented companies. You must have strong business acumen and the ability to work strategically in an international environment.

We also look for:

- Higher education in economics, preferably at the master's level.
 - Experience in similar roles, ideally in the industrial sector.
 - Motivation to use digital tools, including leveraging AI for modernizing and streamlining financial processes.
 - Fluency in Norwegian/Nordic and English; German is an advantage but not required.
-

About the Employer

Aludyne Norway is part of the Aludyne group, a world leader in high-quality casting and machining solutions.

Founded in 1996, the Farsund facility has consistently produced safety-critical aluminum components for the automotive industry. We are proud suppliers to some of the world's leading automotive brands, requiring us to constantly evolve to meet current and future market demands.

With approximately 215 employees, an annual turnover of USD 56 million, and a production volume of 700,000 parts and 9,000 tons of aluminum, Aludyne Norway is a cornerstone of the Farsund community.

We are proud of what we have achieved—and we continuously strive to meet tomorrow's expectations.

Cultivating Continuous Improvement
